

## Additional Requirements

All work must be performed by a Home Upgrade Participating Contractor. Additional details and restrictions apply.

- A carbon monoxide detector must be present or installed on each floor.
- Testing must be performed after work is completed to ensure quality and occupant safety.
- The home must have a minimum of 10% energy savings or measure rebate value of \$1,200 or greater.
- Rebate and incentive amount can be a maximum of 50% of the total project cost, up to a \$3,000 cap.
- Projects that include central air conditioning or a furnace, or their related fans, must submit proof of permit closure.

# Energy Upgrade California® Home Upgrade

Get up to **\$3,000** in rebates!

## Energy Upgrade California® Home Upgrade

Supported through statewide energy efficiency funds, Energy Upgrade California® Home Upgrade rebates and incentives can help you take the next step to increase comfort and create a healthy home.

Improve comfort and indoor air quality year-round

Increase your home's energy efficiency

Earn rebates and incentives up to \$3,000

Invest in your home and increase its value

### What resources are available?

Home Upgrade includes two levels of rebates and incentives.

- **Home Upgrade** offers up to \$3,000 in rebates and incentives for pursuing three or more energy efficiency upgrades from a menu of options. See next page for more information.
- **Advanced Home Upgrade** offers rebates and incentives for pursuing a comprehensive, customized energy efficiency upgrade. Contact your utility provider for more information.

### Who can participate?

Rebates are available statewide, but vary based on the local utility provider. This brochure applies to homeowners of single-family detached homes built in 2001 or earlier in Los Angeles County who are customers of both Southern California Edison (SCE) and SoCalGas®.

Single-family detached home

Customers of both SCE **and** SoCalGas

Located in Los Angeles County

## Calculate Your Home Upgrade Rebate

Choose any three (or more) measures to get started. The project must include at least one upgrade from the Base Measure box below.

Base Measures	<b>Whole Building Air Sealing</b> Reduce leaks by $\geq 30\%$	<b>\$300</b>
	<b>Attic Insulation &amp; Plane Sealing</b> Insulate to $\geq R-38$ , then \$400; if $\geq R-44$ , then \$500	<b>\$400   \$500</b>
	<b>Duct Sealing</b> Seal to $\leq 10\%$ , then \$200; if $\leq 5\%$ , then \$350	<b>\$200   \$350</b>
	<b>Duct Insulation</b> Insulate to $\geq R-8$	<b>\$250</b>
	<b>Central Air Conditioner</b> Replace unit with $\geq 15$ SEER	<b>\$500</b>
	<b>Central Furnace</b> Replace unit with $\geq 92\%$ AFUE, then \$350; if $\geq 95\%$ AFUE, then \$400	<b>\$350   \$400</b>
	<b>Wall Furnace</b> Natural gas gravity wall furnace replacement $\geq 70\%$ AFUE	<b>\$250</b>
	<b>Wall Insulation</b> Insulate $\geq R-13$ for 2x4 frame; insulate $\geq R-19$ for 2x6 frame	<b>\$400</b>
	<b>Floor Insulation</b> Insulate to $\geq R-19$	<b>\$400</b>
	<b>Gas Storage Water Heater</b> Storage unit EF $\geq 0.67$ , then \$200; if EF $\geq 0.70$ , then \$300	<b>\$200   \$300</b>
	<b>Gas Tankless Water Heater</b> Tankless unit EF $\geq 0.82$	<b>\$500</b>
	<b>Hybrid Electric Heat Pump Water Heater</b> Replace unit with EF $\geq 2.00$	<b>\$500</b>

**Add up your rebate!**

(Maximum of 50% of total project cost, up to \$3,000)
