

2019 Regional Partnerships

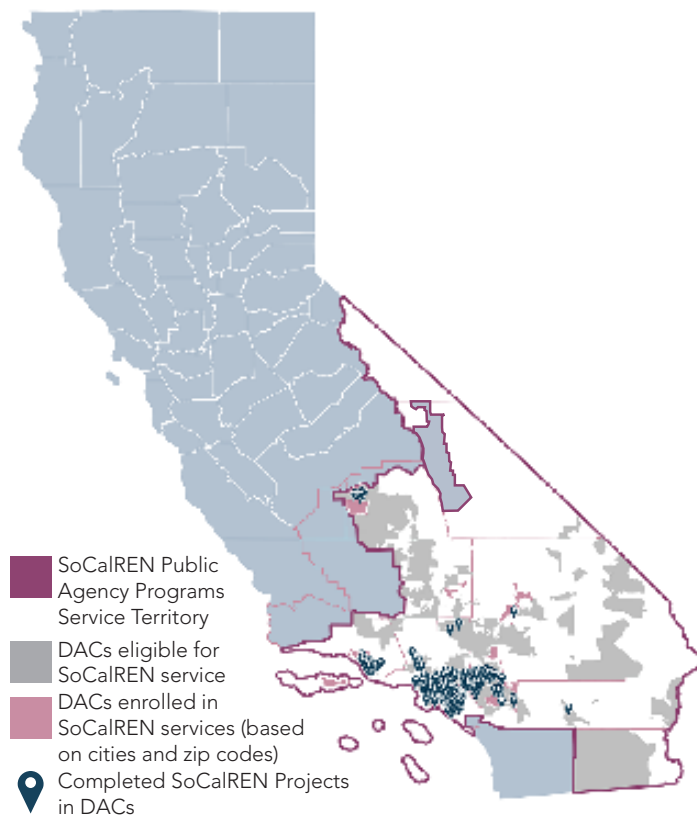

SoCalREN is working with trusted local partners such as councils of governments and non-profit organizations to meet specific subregional needs, serve disadvantaged communities and deliver valuable services throughout the entire SoCalREN territory.

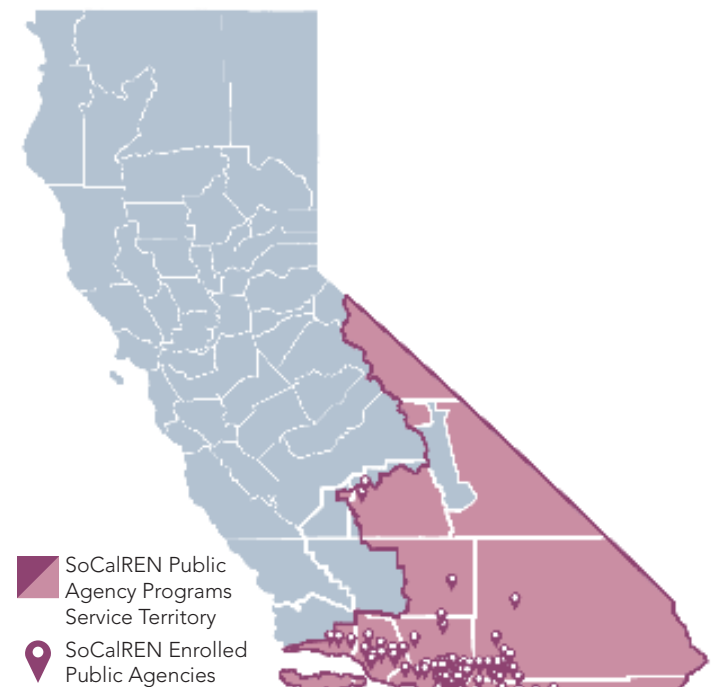

Expanding SoCalREN's Reach

SoCalREN believes in the power of public agencies to lead their communities toward a safe, secure, resilient, affordable, and sustainable clean energy future. Our suite of programs is available to over 700 public agencies including cities, counties, school districts, water and other special districts. SoCalREN covers a geographic area of 12 counties and over 50,000 square miles that is home to over 20 million people.

SoCalREN Completed Projects in Disadvantaged Communities (DACs)

SoCalREN Enrolled Agencies

To date, SoCalREN has enrolled over 136 agencies and has completed over 500 projects. In 2019 alone, SoCalREN is on track to complete 39 projects in disadvantaged communities. By working with regional partners, SoCalREN will continue to focus on disadvantaged communities while expanding its overall reach throughout SoCalREN's service territory, bringing objective, third-party energy efficiency resources to hard to reach areas.
