

This is verification that the existing knob-and-tube wiring was surveyed at this address:

Number

Street

City

ZIP

1. The existing knob-and-tube wiring was found to be:

(A)

- In GOOD condition with:
- No evidence of deterioration
 - No improper connections or splices
 - No evidence of improper overcurrent protection

OR

- In POOR condition and was brought up to acceptable standards by:
- Installing tamperproof overcurrent protection with fuses
 - Installing new service panel with breakers
 - Other: _____

OR

- ABANDONED, totally disconnected, not energized and safe to cover with insulation.

Therefore, the attic has been approved for the installation of ceiling insulation.

(B)

- In POOR condition and not suitable to be brought up to acceptable standards due to:
- Evidence of deterioration
 - Evidence of improper connections or splices
 - Evidence of improper overcurrent protection
 - Other: _____

Therefore, the attic has NOT been approved for the installation of ceiling insulation.

2. Electrical Contractor Certification

- A copy of this certificate will be filed with the local code-enforcement authority, if so required.
- Prior to installation of new overcurrent devices, their effects on usage habits was explained to the occupant(s), and permission to install them was obtained.

NOTICE TO CUSTOMER: This completed Electrical Survey is required before insulation can be installed by the Energy Upgrade California® Home Upgrade Program Participating Contractor when knob-and-tube wiring is present.

You are advised that if tamper-proof overcurrent protection devices are installed to protect the wiring system, your electrical usage habits may require modification to avoid “nuisance” tripping of electrical circuits. Prior to installing overcurrent protection, the electrical contractor performing this Survey is required to explain the difficulties you may experience after the devices are installed.

I hereby give permission to install tamper-proof overcurrent protection devices, if applicable.

I certify that I have read and understand item A or B under section 1.
