

We believe in the power of public agencies to lead their communities towards a safe, secure, resilient, affordable, and sustainable clean energy future.

We offer objective, third party energy efficiency resources for enrolled agencies at no cost. We take a comprehensive, customized approach to support the unique needs of public agencies.

"Partnership with SoCalREN means access to a network of professionals that help identify and install energy efficiency projects while minimizing out of pocket project cost."

The SoCalREN Public Agency Programs are administered by the County of Los Angeles and funded by California utility ratepayers under the auspices of the California Public Utilities Commission.

Project Management

- Start-to-finish energy efficiency project management support
- Energy project planning in alignment with agency energy and resiliency goals
- Staff reports and documentation to help obtain project approval from key decision makers
- Energy service company (ESCO) support and coordination

Technical Support

- Audit and/or engineering calculations
- Assistance with various projects such as whole building envelope, HVAC, lighting, pumping optimization, wastewater plant improvements, and other measures
- Portfolio-wide benchmarking and energy use analysis
- Retrocommissioning support
- Scope of work support/technical performance specifications
- Post-implementation energy and savings usage tracking at the meter
- Distributed energy resource opportunity assessment

Financing and Funding Analysis and Support

- Project financial analysis
- Financing and funding option analysis and support
- SoCalREN cash incentives*
- 0% interest bridge financing through SoCalREN's Revolving Savings Fund*
- Utility, state, federal loan program viability analysis and application support
- Utility and other energy program incentive application support

**Applications for these are exclusive to SoCalREN member agencies.*

Procurement

- Contract language review
- Procurement option analysis
- Objective technical review of third party proposals or audits
- Contractor cost estimate review
- Construction support, including contractor submittal review
- Project close-out support, such as review of final installation documentation

Network Services

- Development of project case studies
- Network-exclusive educational webinars on energy efficiency topics
- Peer-to-peer networking and best practice sharing with other SoCalREN-enrolled public agencies
- Support building internal buy-in for energy efficiency projects at your agency by communicating project benefits at council presentations and alleviating staff capacity
